

How to Submit Items for Web Sites

The best way to send the Information is by the "File" you create it in, (M/S Word, Access, Excel, etc.) or by a PDF File. If you don't have a PDF "Converter" Program, Don't worry, I do, & I can convert it into a "Printable" pdf File to Post. It's a good way to let EVERYONE know what you are doing!

If you want it on the Web page, it will be posted in the order that it is "Received"! It's also a good way of preventing having more then one Event on the same date, to increase other Eagle Riders participation! (Yes, I know, sometimes it can't be prevented).

Also let me know of any "Special" Wallpaper, Music, etc. you would like on YOUR Web Site.

The Web Site is set-up for best viewing, using 600X800 Resolution!

Remember, it's YOUR Web Site, and will only be as **"Informative"** and as good as

YOU want it to be!

If the Information is not sent to me, it won't be on there!
